Current Research

Transforming American Science: Federal Funding and the US Scientific Enterprise, 1945-1968 Book-length study of federal science policy in the decades after World War II, focusing particularly on the response of the American scientific community and research universities to increases in government science funding. The book draws heavily on primary research conducted in manuscript collections of the following libraries: Library of Congress; National Museum of American History (Smithsonian);

National Archives; MIT; Harvard; CUNY; New York Public Library; and the presidential libraries of Presidents Roosevelt, Truman, Eisenhower, Kennedy, and Johnson.
